As Missouri Republicans believe in progress, in improvement, in development and in State pride they favor the proposition to issue \$3,500,000 in bonds for a New State House. And their state leaders are for this proposition, almost to a man. The intelligent Democratic citizens and party leaders are for it. In fact there are few men in the State known as leaders in politics or in business who are not for it.

SAVE A MILLION AND A HALF DOLLARS.

It is with much gratification that the Democrat notes that practically every newspaper in the state favors this proposition and as far as we are able to learn there is almost no opposition from any source. This is as it should be and is an exceedingly wise policy upon the part of the citizens and voters of the state. The quicker the matter is settled and out of the way the better will it be for the progress and prosperity of the state. It appears to be a sufficient amount to build a creditable capitol building for the state and will probably be more economically and honestly spent for the purpose intended than a much larger amount. If this proposition does not carry an election will be held in 1912 asking for five million dollars for the same purpose. It requires less votes to carry the five million proposition than it does the three and one-half million, and therefore it would appear a good opportunity to save one and one-half million dollars, besides the great worth to the state in having the question settled and the agitation stopped, thus allowing the state to go forward unitedly with other projects that go to the development of this wonderful commonwealth. This is one proposition that we hope to see two voters unanimous upon. There is neither politics nor religion in it and we should therefore take it up as loyal and patriotic citizens of the state and go to the polls on August first and vote for the three and one-half millions bond proposition.—Moberly Democrat.

THE SHORT AND LONG HAUL.

Remember, boys, that the tax rate is just the same in the 0.5 million and three and one-half million new capitol proposition. The question is, do you prefer to pay a state capitol tax of 2 cents on \$100 assessed valuation for a lifetime or a short time? If you prefer the short tax period, get into a fight to carry the smaller bond issue at the special August election. It will take two-thirds of the votes cast to do it, but we can't them.

Gottbold Rabold, Main street, Jackson Mo., says: "I was a victim of kidney complaint for a number of years and my back ached nearly all the time. On one occasion I was laid up for several weeks. The kidney secretions were highly colored and too frequent and painful in passage. I doctored and tried every medicine that was recommended to me, but was not benefited. A few years ago I heard about Doan's Kidney Pills and procured a box at H. L. Jones & Son's Drug Store. They gave me prompt and effective relief and I continued taking them until I was cured.
